# Delicious Designs

# Cookie Decorating

**When:** Wednesdays -  
3:15-4:15pm  
begin week of Jan  
19. for 6 weeks.

**What:** Students will enjoy learning new skills for decorating cookies and other confections that will become works of art that are (almost!) too good to eat. We will build on techniques learned to create beautiful projects that can be shared with family. Themes will change weekly and students will have a great time while learning and creating. Students will also decorate an apron that is theirs to keep at the end of session. Every week students will go home with cookies to enjoy and share with their family.

**How to register:** This program is \$95.00.

Register using the following link. turn in the emergency medical form that's attached prior to attending.

# LEGO® MINDSTORM®

## Robotics Class

Grades 5-6, Mini-camp week

\$110 for 5 extra long classes: 3:15 to 4:30PM

Monday through Friday, January 10th, 11th, 12th, 13th, and 14th

### When:

Grades 3-4 Mini-camp week

\$110 for 5 extra long classes: 3:15 to 4:30PM

January 18th, 19th, 20th, 21st, and 24th

LEGO® MINDSTORM® Robotics Class

Grades 3-6 FRIDAYS

\$110 for 5 extra long classes: 3:15 to 4:30PM

Feb 4th, Feb 11th, Feb 25th, March 4th, and March 11th

Students will have a blast learning to design and build robots using LEGO Mindstorms NXT and EV3. These extra long classes are perfect for both new and returning LEGO enthusiasts interested in building and robotics. They will build robots that drive, lift, scoop, and interact with each other as they master challenges, create robot attachments, and drive their robots by remote control to compete in games, races, heavy weight challenges, and much more! They will have time to play with their robots at the end of each class. A favorite highlight will be combining all of the skills they've learned to create their ultimate robot for an epic battling robot competition! Please note: Students can register for either or both the mini camp session for their grade level and/or the Fridays session. All classes are appropriate for new and returning students; they will be able to build at their own speed and skill level whether they are first timers or have worked with me before. (LEGOs® do not go home with the students. LEGO® Company is not affiliated with Gear Up Robotics LLC). Each class is limited to 10 students. Contact: Janet Bockey at 513-849-6179 or robotics.classes@gmail.com

### What:

### How to register:

This program is \$110.00.  
Register using the link below. Turn in the emergency medical form and Payment. That's attached prior to attending.

# Soccer Shots

**When:** 2 sessions - 6 weeks each beginning Jan. 20th and March 24th in the gym from 3:15

**What:** Recommended for children ages 6-12. Soccer Shots Premier is for children new to soccer and those who want to build upon what they have learned in the Classic program. The premier class will progress with more advanced skills and increased scrimmage time. Children will be introduced to the tactical elements of the game as they prepare to play on competitive teams.

**How to register:** This program is \$88.00. Register using the link below. Turn in the emergency medical form that's attached prior to attending.
